

KAIROS PLANET APPLICATION

KAIROSPLANET APPLICATION GUARANTEES
ABSOLUTE RELIABILITY AND SAFETY OF YOUR PC

KairosPlanet Application
is installed in strictly allotted space.
Due to a special data encryption
method and anti-breach protection

KairosPlanet Application DOES NOT
obtain access to any personal data of users.
Accordingly, it **CANNOT** provide
access to third parties

**KairosPlanet Application
uses EXCLUSIVELY its own
personal work file**

**Any interactivity (or interference)
of KairosPlanet Application
with any other software
and (or) files on users' PC that installed
the Application is completely RULED OUT**

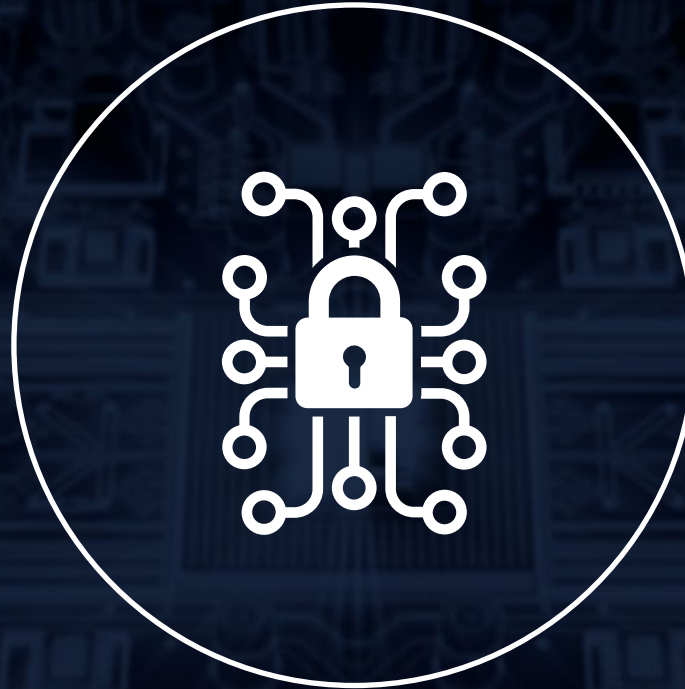

KAIROSPLANET APPLICATION OPERATES
EXCLUSIVELY WITHIN THE LEGAL FRAMEWORK

and it is not in any way engaged in interception, tracking, blocking, etc.
of any information including user data

KAIROSPLANET APPLICATION PERFORMS
INTERNET CONNECTION STRICTLY WITH KAIROS
SERVER NETWORK AND NO OTHER INSTALLATION

Therefore, any abuse of users' PC by third parties (perpetrators) for any unlawful actions dealing with cybercrime (DDoS attacks, spam and so on) is TOTALLY EXCLUDED

DURING DATA TRANSFER, ANY ACCESS ON BEHALF
OF THIRD PARTIES IS COMPLETELY RULED OUT DUE
TO SPECIAL PATENTED ENCRYPTION METHOD
OF INTERNET CONNECTION

KAIROSPLANET APPLICATION DOES NOT BLOCK
ANY KNOWN ANTIVIRUS PROGRAMS, FIREWALLS, ETC.

On the contrary, its harmlessness may be tested with any harm-test of any antivirus

- ☑ Occasionally, the Application may be blocked by antivirus even though it contains no malware code
- ☑ More often than not, it happens when the heuristic analysis embedded in antivirus, which is based on data statistics is turned on which is based on data statistics
- ☑ Since it contains no such data statistics on a new application, the antivirus blocks the said application by default for safety reasons
- ☑ This is a general rule for heuristic analysis applied to all new applications. In order to prevent the new application from being blocked, it should be included to the antivirus list of exceptions via settings.

The Application's safety report may be checked via VirusTotal (a Google affiliate).
The referred report is generated by an independent service using best antiviruses
